

Worthless Stock Certificates - Customer Instructions

Vision currently has physical custody of stock certificates for your securities listed below. These securities are currently worthless. Since there is a cost for Vision to continue to hold your certificates, Vision has instituted a new policy for handling worthless customer certificates.

You have three options for the handling of your worthless stock certificates. (Check one option)

- Authorize Vision to destroy your certificates. There will be no charge to you for this.
- Vision continues to hold your certificates. There is a charge of \$20.00 per month per certificate for this service.
- Vision has each stock certificate re-registered in your name and sent to you. There is a charge of \$100.00 - \$150.00 per certificate for this service.

Once a certificate has been destroyed, you will have no further claim to the securities and Vision makes no claims or predictions concerning the future value of the securities. It is your decision alone whether to have your certificate destroyed, which is completely voluntary. This option is being provided for your convenience by Vision in order for you to avoid the cost of Vision continuing to hold your certificate or having the certificate re-registered in your name.

Quantity	Security Description	Symbol/CUSIP

You further agree to indemnify, defend and hold Vision harmless from and against any and all claims, demands, causes of action, obligations and liabilities of any kind related to your certificates. You also release Vision from any liability in connection with your certificates.
